### **U.S. Census Bureau News**

## **Joint Release**

# U.S. Department of Housing and Urban Development

U.S. Department of Commerce • Washington, D.C. 20233

### FOR IMMEDIATE RELEASE TUESDAY, JULY 20, 2010 AT 8:30 A.M. EDT

CB10-109

Erica Filipek or Stephen Cooper Manufacturing and Construction Division (301) 763-5160

#### **NEW RESIDENTIAL CONSTRUCTION IN JUNE 2010**

The U.S. Census Bureau and the Department of Housing and Urban Development jointly announced the following new residential construction statistics for June 2010:

#### **BUILDING PERMITS**

Privately-owned housing units authorized by building permits in June were at a seasonally adjusted annual rate of 586,000. This is 2.1 percent  $(\pm 2.1\%)^*$  above the revised May rate of 574,000, but is 2.3 percent  $(\pm 2.0\%)$  below the June 2009 estimate of 600,000.

Single-family authorizations in June were at a rate of 421,000; this is 3.4 percent ( $\pm 1.8\%$ ) below the revised May figure of 436,000. Authorizations of units in buildings with five units or more were at a rate of 145,000 in June.

#### **HOUSING STARTS**

Privately-owned housing starts in June were at a seasonally adjusted annual rate of 549,000. This is 5.0 percent  $(\pm 13.2\%)^*$  below the revised May estimate of 578,000 and is 5.8 percent  $(\pm 10.5\%)^*$  below the June 2009 rate of 583,000.

Single-family housing starts in June were at a rate of 454,000; this is 0.7 percent ( $\pm 10.7\%$ )\* below the revised May figure of 457,000. The June rate for units in buildings with five units or more was 88,000.

#### HOUSING COMPLETIONS

Privately-owned housing completions in June were at a seasonally adjusted annual rate of 886,000. This is 26.2 percent ( $\pm 15.3\%$ ) above the revised May estimate of 702,000 and is 11.0 percent ( $\pm 15.2\%$ )\* above the June 2009 rate of 798,000.

Single-family housing completions in June were at a rate of 676,000; this is 31.3 percent ( $\pm 15.7\%$ ) above the revised May rate of 515,000. The June rate for units in buildings with five units or more was 202,000.

New Residential Construction data for July 2010 will be released on Tuesday, August 17, 2010, at 8:30 A.M. EDT.

#### **EXPLANATORY NOTES**

In interpreting changes in the statistics in this release, note that month-to-month changes in seasonally adjusted statistics often show movements which may be irregular. It may take 3 months to establish an underlying trend for building permit authorizations, 3 months for total starts, and 5 months for total completions. The statistics in this release are estimated from sample surveys and are subject to sampling variability as well as nonsampling error including bias and variance from response, nonreporting, and undercoverage. Estimated relative standard errors of the most recent data are shown in the tables. Whenever a statement such as "2.5 percent (±3.2%) above" appears in the text, this indicates the range (-0.7 to +5.7 percent) in which the actual percent change is likely to have occurred. All ranges given for percent changes are 90-percent confidence intervals and account only for sampling variability. If a range does not contain zero, the change is statistically significant. If it does contain zero, the change is not statistically significant; that is, it is uncertain whether there was an increase or decrease. The same policies apply to the confidence intervals for percent changes shown in the tables. On average, the preliminary seasonally adjusted estimates of total building permits, housing starts and housing completions are revised about two percent or less. Explanations of confidence intervals and sampling variability can be found on our web site listed above.

<sup>\* 90%</sup> confidence interval includes zero. The Census Bureau does not have sufficient statistical evidence to conclude that the actual change is different from zero.
