### FOR RELEASE AT 8:30 AM EDT, FRIDAY, JULY 17, 2020

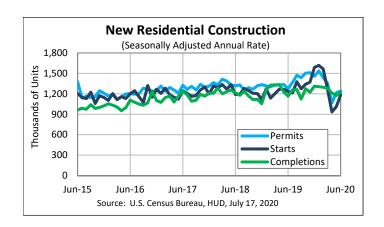

### **MONTHLY NEW RESIDENTIAL CONSTRUCTION, JUNE 2020**

Release Number: CB20-108

**Statement Regarding COVID-19 Impact:** Due to recent events surrounding COVID-19, many governments and businesses are operating on a limited capacity or have ceased operations completely. The Census Bureau has monitored response and data quality and determined estimates in this release meet publication standards. For more information on the compilation of this month's report, see <<u>COVID-19 FAQs</u>>.

**July 17, 2020** - The U.S. Census Bureau and the U.S. Department of Housing and Urban Development jointly announced the following new residential construction statistics for June 2020:

#### **Building Permits**

Privately-owned housing units authorized by building permits in June were at a seasonally adjusted annual rate of 1,241,000. This is 2.1 percent (±1.2 percent) above the revised May rate of 1,216,000, but is 2.5 percent (±1.7 percent) below the June 2019 rate of 1,273,000. Single-family authorizations in June were at a rate of 834,000; this is 11.8 percent (±2.0 percent) above the revised May figure of 746,000. Authorizations of units in buildings with five units or more were at a rate of 368,000 in June.

#### **Housing Starts**

Privately-owned housing starts in June were at a seasonally adjusted annual rate of 1,186,000. This is 17.3 percent (±11.0 percent) above the revised May estimate of 1,011,000, but is 4.0 percent (±9.1 percent)\* below the June 2019 rate of 1,235,000. Single-family housing starts in June were at a rate of 831,000; this is 17.2 percent (±10.0 percent) above the revised May figure of 709,000. The June rate for units in buildings with five units or more was 350,000.

#### **Housing Completions**

Privately-owned housing completions in June were at a seasonally adjusted annual rate of 1,225,000. This is 4.3 percent (±12.2 percent)\* above the revised May estimate of 1,174,000 and is 5.1 percent (±11.9 percent)\* above the June 2019 rate of 1,166,000. Single-family housing completions in June were at a rate of 910,000; this is 9.6 percent (±15.2 percent)\* above the revised May rate of 830,000. The June rate for units in buildings with five units or more was 311,000.

The July report is scheduled for release on August 18, 2020. View the full schedule in the Economic Briefing Room: < <a href="https://www.census.gov/economic-indicators/">www.census.gov/economic-indicators/</a>. The full text and tables for this release can be found at <a href="https://www.census.gov/construction/nrc/">www.census.gov/construction/nrc/</a>.

#### **EXPLANATORY NOTES**

In interpreting changes in the statistics in this release, note that month-to-month changes in seasonally adjusted statistics often show movements which may be irregular. It may take three months to establish an underlying trend for building permit authorizations, six months for total starts, and six months for total completions. The statistics in this release are estimated from sample surveys and are subject to sampling variability as well as nonsampling error including bias and variance from response, nonreporting, and undercoverage. Estimated relative standard errors of the most recent data are shown in the tables. Whenever a statement such as "2.5 percent (±3.2 percent) above" appears in the text, this indicates the range (-0.7 to +5.7 percent) in which the actual percentage change is likely to have occurred. All ranges given for percentage changes are 90 percent confidence intervals and account only for sampling variability. If a range does not contain zero, the change is statistically significant. If it does contain zero, the change is not statistically significant; that is, it is uncertain whether there was an increase or decrease. The same policies apply to the confidence intervals for percentage changes shown in the tables. On average, the preliminary seasonally adjusted estimates of total building permits, housing starts and housing completions are revised 2.1 percent or less. Explanations of confidence intervals and sampling variability can be found on our website.

#### API

The Census Bureau's application programming interface lets developers create custom apps to reach new users and makes key demographic, socio-economic and housing statistics more accessible than ever before. <a href="https://www.census.gov/developers/">www.census.gov/developers/</a>

### **FRED Mobile App**

Receive the latest updates on the nation's key economic indicators by downloading the FRED App < <a href="https://fred.stlouisfed.org/fred-mobile/">https://fred.stlouisfed.org/fred-mobile/</a> for both Apple and Android devices. FRED, the signature database of the Federal Reserve Bank of St. Louis, now incorporates the Census Bureau's 13 economic indicators.

###

\* The 90 percent confidence interval includes zero. In such cases, there is insufficient statistical evidence to conclude that the actual change is different from zero.
